

The Living Playbook

Turn static legal guidance into an intelligent, self evolving resource

Setting the scene

What is Siemens and what is a playbook?

Our purpose has guided us
for more than 175 years:

**We create technology
to transform the everyday,
for everyone.**

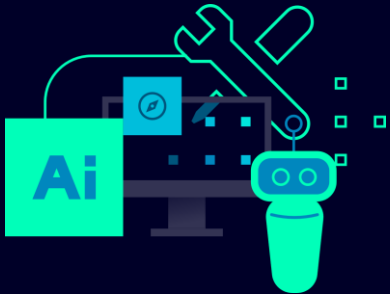

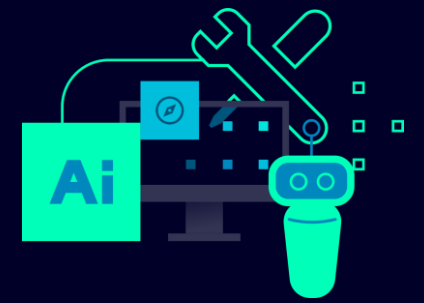

A Playbook

Every deal needs a contract. Every contract gets negotiated. In-house lawyers handle this- **thousands of times a year.**

Over time, they've built clear rules on what to accept, where to bend, and where to draw the line. That guidance lives in a **playbook.**

- **Standard position** — *what we want*
- **Fall-back** — *what we can live with*
- **Red line** — *what we'll never accept*

The Problem

The knowledge is trapped

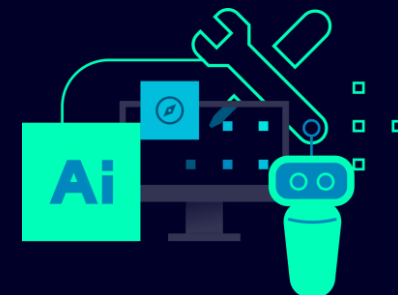

Stuck in documents — Can't speak to it

Not AI Friendly — Document not fully compatible with AI

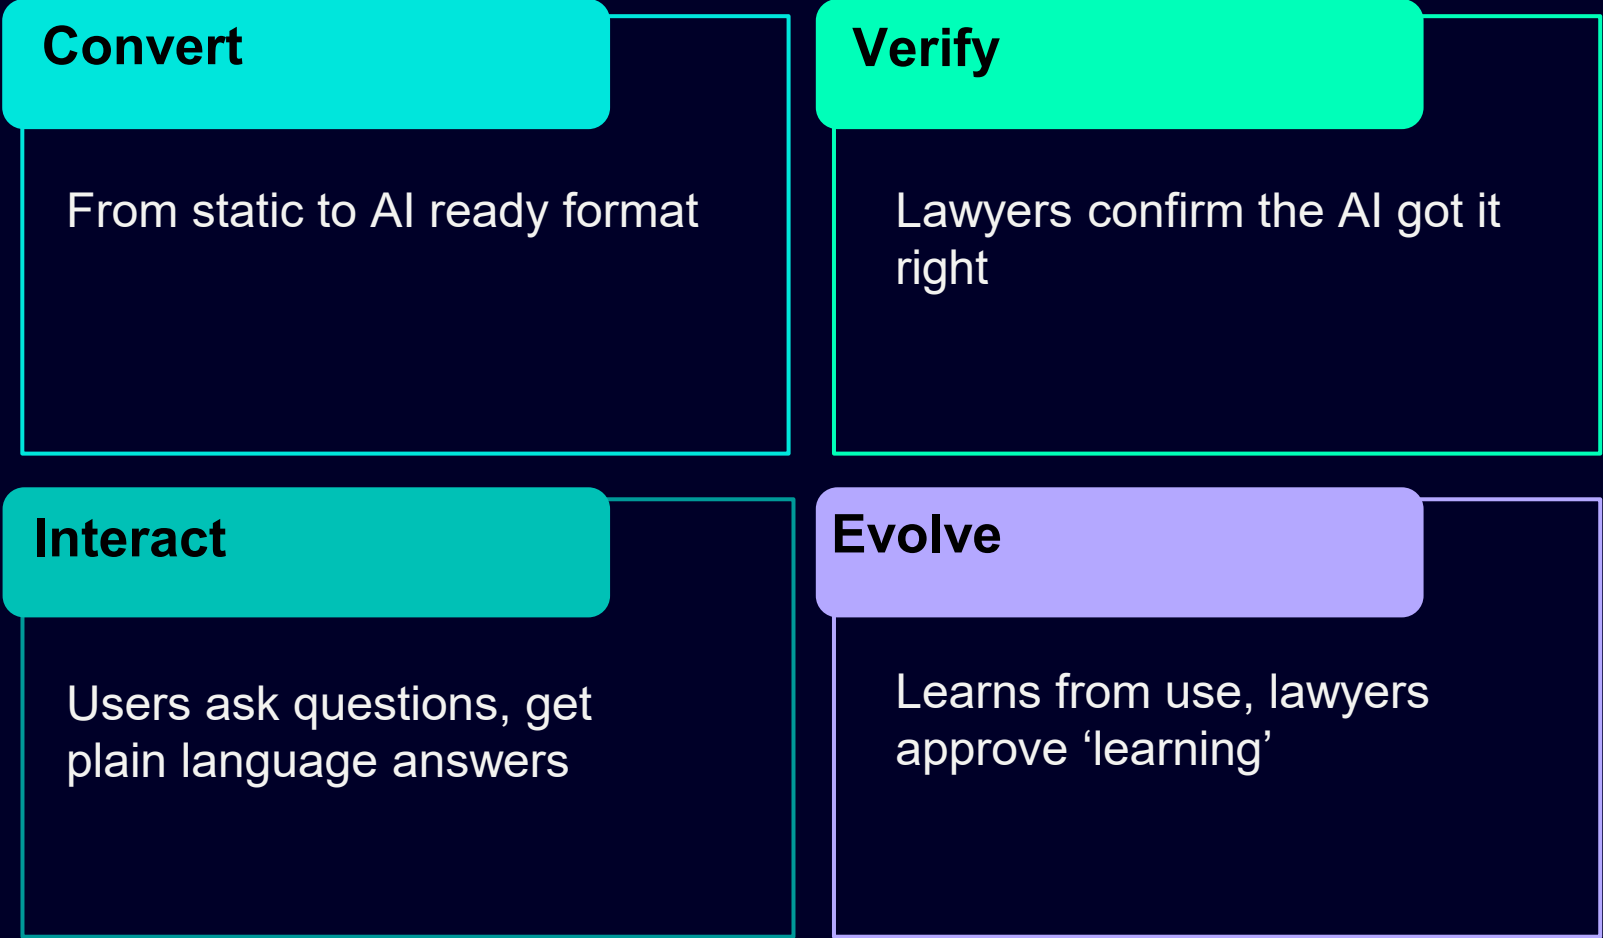

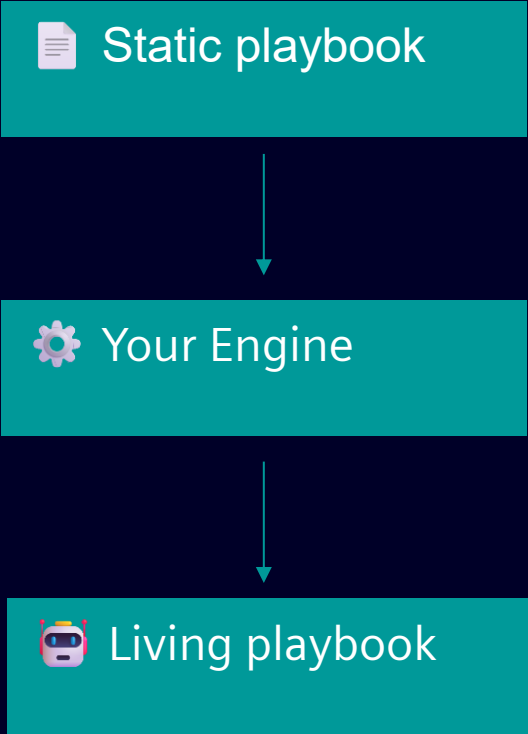

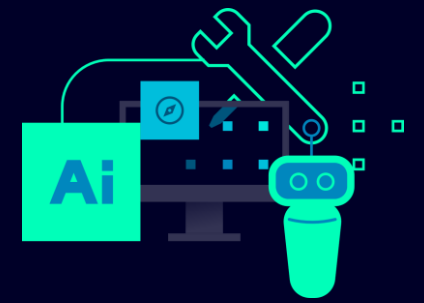

Frozen in time — Negotiation insights never feed back in
